You May Never Need Your Snow Dragon® Snowmelter To Operate At -70° F...

September 28, 2007
McKinley Climatic Laboratory
EGLIN AIRFORCE BASE

On Day 3 of successful sub-zero testing, Snow Dragon® meets its final objective by cold starting one of its snowmelters at -60° F. Snow Dragon® engineers decide to surpass the test objectives and give the order to lower the chamber to -70° F, where the snowmelter runs flawlessly for the remainder of the test day.

But It's Good To Know It Will!

TRILOGY PLASTICS High Quality Rotational Molding

ISO 9001 Registered

- Competitive Pricing
- Partnering
- Lean Manufacturing
- Flexible Attitude
- Dedicated Employees
- Creative Solutions
- Professional Relationships
- Advanced Systems
- On-Time Deliveries
- Engineering and Design Assistance
- State-of-the-Art Manufacturing Facility

Triology Plastics is an internationally recognized manufacturer of high quality rotationally molded parts and assemblies.

Our expertise is in customer satisfaction. Triology Plastics goes beyond rotational molding by working closely with customers, from design to final product, to assure they get exactly what they expect - quality rotomolded parts.

Rotomolding
The rotomolding process is an economical method of producing seamless, one-piece, hollow parts with complex shapes that would be costly or impossible in other plastic processes.

- Design Flexibility
- Economical Tooling / Shorter Lead Times
- Complex Geometries
- Molded-in Colors, Graphics and Metal Inserts

HOWARD INDUSTRIES
Architectural Signage Systems

The City of Bryan, Texas wanted a large entryway sign that was classy, distinctive and durable. The FASTSIGNS store in Conroe, Texas teamed up with Howard Industries to provide the City of Bryan with a beautiful DeSign Stone® sign. From initial design to installation, it was a positive learning experience for all at the Conroe store. So impressed was the City of Bryan, they're now considering future DeSign Stone® projects to be installed by the Conroe FASTSIGNS Team. DeSign Stone® is extremely lightweight, easy to install and ships in two weeks, with or without graphics. Discover for yourself, as the folks in Conroe did, how rewarding it can be when you partner with Howard Industries. Start your partnership today and call for your free logo imprinted brochures.

Municipal Revenue Services

Finding Revenue Sources for PA Taxing Districts Hit by Unpaid Property Taxes Since 2003

What is the MRS Tax Lien Management Program & How Will It Help My Taxing District?

The MRS Tax Lien Management Program is a cash management program designed to help school districts better manage cash flow. It is modeled after the business sector where companies utilize a number of strategies and tactics to increase cash flow. An integral part of the MRS Tax Lien Management Program is accelerating collections which would ordinarily be collected in future periods into the current year. Thus, if the technique is used only one-time, there would be one to three years in the future where collections would be less than normal. However, the MRS Tax Lien Management Program may be used continually so that the taxing entity is continuously maximizing its cash flow, year after year.

Generate Revenue Today with the MRS Tax Lien Management Program Instead of Waiting Up To 4 Years to Collect Unpaid Taxes. Just Think What You Can Do with New, Additional Revenue:

- Pay Down Debt
- Offset Pension Liability
- Debt Service Maintenance
- Pay for Capital Projects
- Create a Rainy Day Fund
- Improve Your Bond Rating
- Fund Your Operating Budget

And remember, tax collection procedures stay exactly the same and taxpayers are not affected by this program. In sum, the MRS Tax Lien Management Program is an efficient and effective way to better manage cash while simultaneously providing budget relief. Call or email us today to schedule a meeting or to arrange a presentation.

With the MRS Program, Tax Liens are an Asset You Can Sell, Not a Debt. And Remember: We Are Not Tax Collectors!

CrewTracker Software

YOUR EYE OF THE SNOWSTORM

What Exactly is CrewTracker Software?

Founded by a Certified Snow Professional with decades of experience as a snow business owner, CrewTracker is the only comprehensive business management software specifically made for the snow and ice management industry. CrewTracker Software® allows you to invoice within minutes of job completion, not days. Accounting is kept up to date the same day the work is completed, not weeks or months from now. A big reason why CrewTracker is so successful is it helps snow contractors see the big picture, to see where you can actually improve your business.

Why You Need CrewTracker Software

- Create rock-solid data that's recorded for time sheets and site information, is never hand written and removes the chance of human error during post-event, data entry.
- Interactive Voice Recognition (IVR) lets crews report field information using any cell phone without buying extra hardware.
- With the Remote Entry option you can enter accurate data recordings in real-time on your choice of web enabled devices.
- Using the Web Portal, you, your snow managers and your clients can view the status of all properties in real-time on your internet enabled devices.
- Because CrewTracker generates a myriad of reports in real-time, including financials, the big picture you'll see will always be up to date.
- Since many snow contractors also provide lawn maintenance, they can easily use CrewTracker for those services as well.

"Valley Enterprises Ltd. has provided exceptional services for my portfolio over the last 5 years. The quality of work and professionalism is unparalleled, hence the continued working relationship that we have developed. I would certainly recommend Valley Enterprises Ltd. for snow removal services without hesitation."
Mike Devolin
Imperial Parking
Vancouver, B.C.

❖ Snow Plowing

❖ Sidewalk Cleaning

❖ Ice Control Applications

❖ Snow Stacking

❖ Snow Hauling

❖ Roof Cleaning

❖ Parking Ramp Snow Removal

We Know Snow!

Leading a massive fleet of trucks, loaders, and sidewalk crews, Valley Enterprises Snow Removal can service everything from corner lots, to large malls with hundreds of acres of paved surface to plow. Since property owners and managers look at snow plowing as an occasional nuisance and not a daily maintenance issue, little time, if any, is allocated to finding the most cost-effective way to manage snow and ice removal. That's what we do!

Proud Snow Contractor XXI Olympic Winter Games

"On behalf of the VANOC Snow Management, Cleaning & Waste department we would like to express a huge thank you to you and your team for the supply of snow management services to the BC Place Stadium and Canada Hockey Place official venues. Your team's involvement, enthusiasm and continued support were a vital part of the amazing success of the Games."
